EDITOR'S NOTE

EDITOR'S NOTE — VOLUME 2:

It is a pleasure to present the **Second Volume of the Newsletter of Al-Kawthar University, Faculty of Allied Health and Medical Sciences**. This edition reflects the continued academic growth, achievements, and contributions of our faculty and students.

Through academic activities, professional development, innovation, and collaborative efforts, we remain committed to fostering **academic excellence, quality education, and a culture of continuous learning**.

I sincerely appreciate the dedication of our faculty members, students, and all contributors whose valuable efforts have made this publication possible. May this volume inspire further achievement and continued progress within our academic community.

MISSION

To provide affordable, unique, quality and evidence based human capital development healthcare programs of national and international standards, deeply rooted in Islamic Values; producing quality graduates equipped with academic and professional knowledge for their Islamic ethical and professional growth for positive contributions to society.

VISION

To be a leading center focusing on "Ihsan" in healthcare education, research, and innovation; inspired by the teachings of Prophet Muhammad (peace be upon him) and the earliest generation of Muslims; producing professionals providing compassionate care, delivering quality services; and acting as the agent of social change.

VALUES

Abiding the Institutional Islamic ethics and values

Global Vision with "Ihsan"

Following guidelines from regulatory bodies

Evidence based programs, Research and Innovation

Compassionate Caring

Dedication, Respect and Integrity

Collaboration and Team work

Lifelong Learning

Social Responsibility

Wellness and Balance in life

Ethical practices and Transparency.

Quality Mindset and Culture with Emphasis on "Zero Error"

Accreditation Visits

AHPC Accreditation Visit to Al-Kawthar University

On 9th July 2026, Al-Kawthar University had the honor of hosting an accreditation and inspection visit by the Allied Health Professionals Council (AHPC). The visit was led by Mr. Muhammad Ismail Jiskani, Vice President AHPC & Chairperson, Sindh AHPC.

The visiting delegation was warmly received and given a comprehensive tour of the university's facilities by Prof. Dr. Minhaj A. Qidwai, Dean, Faculty of Allied & Medical Sciences, and Dr. Sidra Rafi, Head of Department, in the presence of the Vice Chancellor and Registrar of Al-Kawthar University.

During the visit, the AHPC leadership conducted a detailed and thorough inspection of the academic infrastructure, laboratories, and learning resources available to students of the Allied Health programs. Special attention was given to the laboratory facilities, where the delegation carefully examined equipment, safety protocols, and overall lab organization to ensure alignment with regulatory standards. All relevant documentation — including student records, faculty credentials, curriculum plans, and compliance reports — was meticulously reviewed and found to be well-maintained and in proper order.

The inspection team took the time to inspect each laboratory individually, checking instruments, storage systems, and safety measures in detail, reflecting the university's disciplined approach to maintaining a well-equipped and compliant learning environment. Their visit provided firsthand insight into the university's commitment to upholding high standards of quality education and regulatory compliance across all academic departments.

The visit reflects Al-Kawthar University's continued dedication to meeting national accreditation standards and strengthening its academic credibility within the allied health education sector. The satisfactory outcome of the inspection stands as a testament to the collective efforts of the faculty, administration, and staff in ensuring that every aspect of the institution — from academic delivery to laboratory management — meets the benchmarks set by the Allied Health Professionals Council.

PNMC Team Visits Al-Kawthar University for Seat Enhancement Assessment

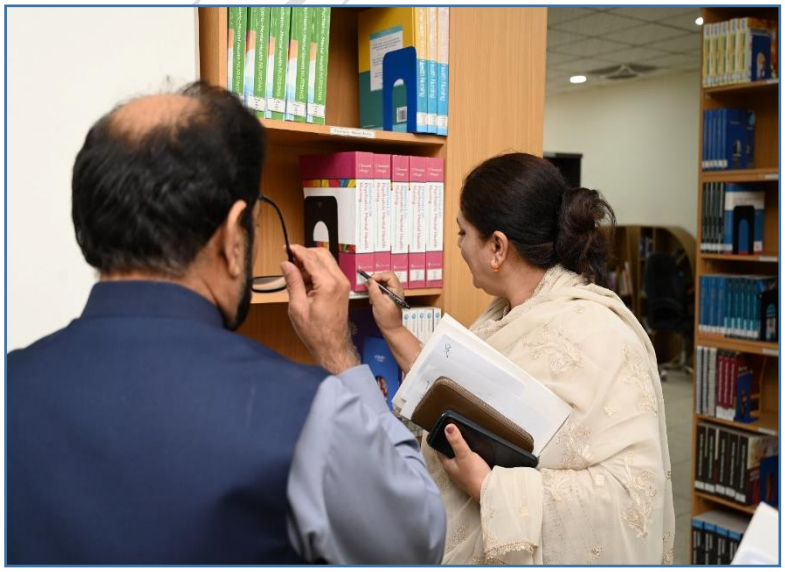

Al-Kawthar University's College of Nursing hosted a successful visit by the Pakistan Nursing and Midwifery Council (PNMC) on 31st July, aimed at the enhancement of student seats — an important milestone toward expanding the college's academic capacity. The visiting team was led by Ms. Rohida Riaz Khan, along with fellow members Ms. Farah and Mr. Irshad, who conducted a thorough assessment of the college's facilities, academic standards, and overall compliance with regulatory requirements.

3RD
MEETING OF
THE BOARD OF
WELCOME TO THE PNMC TEAM
Al-Kawthar University College of Nursing

The visit concluded successfully, with the PNMC team acknowledging the college's efforts and infrastructure in line with national nursing education benchmarks — a proud achievement made possible through the collective commitment of the Dean, Principal, HOD, and faculty of Al-Kawthar University's College of Nursing.

HEC Visit & NOC Approval — Al-Kawthar University Rashidabad Campus

Alhamdulillah, a proud and significant milestone was achieved as Al-Kawthar University's Rashidabad Campus successfully welcomed a delegation from the Higher Education Commission (HEC), Pakistan, on Saturday, 8th August 2026. The visit formed part of the official inspection process for NOC approval, during which the delegation thoroughly reviewed the campus infrastructure, academic facilities, and laboratories.

This important step paves the way for the launch of three highly anticipated undergraduate programs at the Rashidabad Campus — BS Computer Science, BS Nursing, and BS Education — opening new avenues of quality higher education for the youth of Rashidabad and the surrounding communities. With the NOC now successfully granted, this achievement stands as a testament to Al-Kawthar University's continued commitment to academic excellence and its vision of expanding access to meaningful education. A new chapter begins at Al-Kawthar University Rashidabad Campus — built on modern education, strong values, and a shared vision for impact.

FACULTY OF ALLIED HEALTH & MEDICAL SCIENCES NEWSLETTER
Feb. – August 2026
ISSUE # 2

As part of its regulatory compliance process, Al-Kawthar University's Sub-Campus in Rashidabad, District Tando Allahyar, hosted an inspection visit by the Higher Education Commission (HEC) on August 8, 2026, to assess the campus's academic and infrastructural readiness. In recognition of the compliance demonstrated, HEC formally issued a No Objection Certificate (NOC) on August 13, 2026, authorizing the Sub-Campus to admit students — up to August 31, 2027 — for three undergraduate programs: BS Computer Science, BS Nursing (subject to recognition by the Pakistan Nursing and Midwifery Council), and B.Ed. (Hons) Elementary.

A New Milestone: HEC Grants NOC to Al-Kawthar University's Rashidabad Sub-Campus

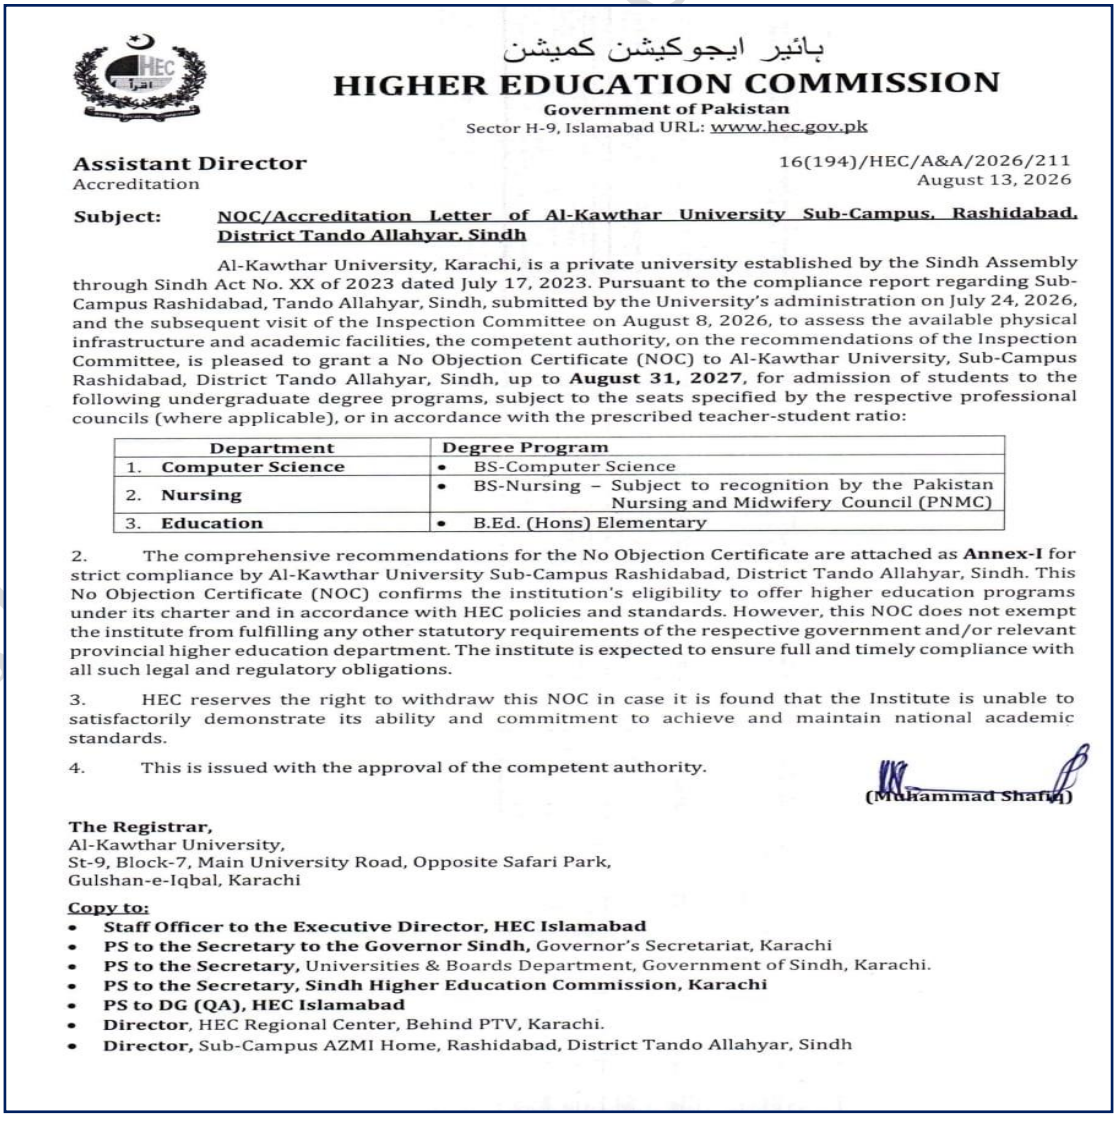

This significant milestone — the grant of a No Objection Certificate (NOC) by the Higher Education Commission (HEC) to Al-Kawthar University's Rashidabad Sub-Campus — stands as a proud reflection of teamwork, dedication, and vision at every level of the institution.

The achievement was made possible under the visionary leadership of **Vice Chancellor Prof. Dr. Engr. Athar Mahboob (Tamgha-e-Imtiaz)**, whose guidance steered the university through every stage of this rigorous compliance and accreditation process. **Registrar Dr. Rida Ahmed**, along with **all Deans and HoDs**, played a pivotal role in ensuring institutional coordination and adherence to HEC's academic and administrative standards.

Special appreciation is extended to **Prof. Dr. Amir Mehmood**, Rashidabad Campus Director, whose on-ground leadership was instrumental throughout the preparation and inspection process, and to **Engr. Muhammad Immad Uddin**, Director, SFA, for his valuable support in facilities and compliance readiness.

The College of Nursing also played a vital role in this success, with **Mr. Nadeem Soomro (HoD, College of Nursing)**, **Mr. Muhammad Ali**, **Mr. Mujahid Ali**, **Ms. Zohra Bano**, and **Ms. Fozia Iqbal** contributing significantly toward documentation, facility readiness, and academic compliance. Their efforts were mirrored by dedicated faculty members across other departments, whose collective hard work and commitment ensured a smooth and successful HEC inspection.

This achievement is a true testament to what the Al-Kawthar team can accomplish when united by a shared vision — paving the way for new academic opportunities at the Rashidabad Campus.

August 13, 2026

Subject: **NOC/Accreditation Letter of Al-Kawthar University Sub-Campus, Rashidabad, District Tando Allahyar, Sindh**

Al-Kawthar University, Karachi, is a private university established by the Sindh Assembly through Sindh Act No. XX of 2023 dated July 17, 2023. Pursuant to the compliance report regarding Sub-Campus Rashidabad, Tando Allahyar, Sindh, submitted by the University's administration on July 24, 2026, and the subsequent visit of the Inspection Committee on August 8, 2026, to assess the available physical infrastructure and academic facilities, the competent authority, on the recommendations of the Inspection Committee, is pleased to grant a No Objection Certificate (NOC) to Al-Kawthar University, Sub-Campus Rashidabad, District Tando Allahyar, Sindh, up to **August 31, 2027**, for admission of students to the following undergraduate degree programs, subject to the seats specified by the respective professional councils (where applicable), or in accordance with the prescribed teacher-student ratio:

Department	Degree Program
1. **Computer Science**	• BS-Computer Science
2. **Nursing**	• BS-Nursing – Subject to recognition by the Pakistan Nursing and Midwifery Council (PNMC)
3. **Education**	• B.Ed. (Hons) Elementary

2. The comprehensive recommendations for the No Objection Certificate are attached as **Annex-I** for strict compliance by Al-Kawthar University Sub-Campus Rashidabad, District Tando Allahyar, Sindh. This No Objection Certificate (NOC) confirms the institution's eligibility to offer higher education programs under its charter and in accordance with HEC policies and standards. However, this NOC does not exempt the institute from fulfilling any other statutory requirements of the respective government and/or relevant provincial higher education department. The institute is expected to ensure full and timely compliance with all such legal and regulatory obligations.

3. HEC reserves the right to withdraw this NOC in case it is found that the Institute is unable to satisfactorily demonstrate its ability and commitment to achieve and maintain national academic standards.

4. This is issued with the approval of the competent authority.

Seminar & Events

International Nurses Day 2026 — "Our Nurses. Our Future. Empowered Nurses Save Lives."

The College of Nursing at Al-Kawthar University marked International Nurses Day 2026 with a special commemorative event held on 14th May at the University Auditorium. This year's global theme, "Our Nurses. Our Future. Empowered Nurses Save Lives," set the tone for a day dedicated to honoring the vital role nurses play in healthcare systems worldwide.

The event brought together students and faculty to reflect on the profession's growing impact — from frontline patient care to leadership in health innovation and community wellbeing. It served as a reminder that empowering nurses through education, recognition, and opportunity directly translates into stronger, safer healthcare for all.

Al-Kawthar University College of Nursing continues to take pride in nurturing compassionate, skilled, and forward-thinking nurses who are shaping the future of healthcare, one patient at a time.

The event was marked with heartfelt participation as students gathered for a candlelight tribute, honoring the spirit and sacrifices of the nursing profession. Chief guests and faculty members graced the occasion, joined by an engaged audience amid a festively decorated auditorium. Students also showcased creative health-awareness charts and posters, reflecting their passion for the field. A formal address by the chief guest capped off a memorable celebration of Al-Kawthar University's nursing community.

The event was marked with heartfelt participation as students gathered for a candlelight tribute, honoring the spirit and sacrifices of the nursing profession. Chief guests and faculty members graced the occasion, joined by an engaged audience amid a festively decorated auditorium. Students also showcased creative health-awareness charts and posters, reflecting their passion for the field. A formal address by the chief guest capped off a memorable celebration of Al-Kawthar University's nursing community.

The celebration was further elevated by the presence of two distinguished guests, whose participation added great depth and meaning to the occasion. Dr. Shehzad Bashir, Associate Professor at Ziauddin University, graced the event with his valuable presence and shared insights that resonated deeply with the audience, reflecting his continued commitment to the healthcare and nursing profession. Alongside him, Mr. Saeedullah, representing the College of Nursing, also joined as a guest of honor, lending further weight and warmth to the proceedings.

In recognition of their support and contribution to the field of nursing education, the Principal of the College of Nursing formally presented shields to both guests as a token of appreciation and gratitude. The gesture was met with warm applause from students and faculty alike, symbolizing the College's respect for those who continue to champion and uplift the nursing profession. This moment of recognition served as a fitting and memorable close to a day dedicated to honoring nurses and celebrating the spirit of care, dedication, and service that defines the profession.

AL-KAWTHAR UNIVERSITY

The celebration reached its joyous conclusion with a traditional cake-cutting ceremony, bringing together the Dean, Principal, faculty members, and students in a shared moment of celebration. Surrounded by the vibrant balloon décor and the spirit of unity that had defined the day, the ceremony symbolized appreciation for the nursing profession and the collective dedication of everyone who contributes to it. Smiles, applause, and warm wishes filled the hall as students and faculty came together, marking a fitting and festive end to the International Nurses Day 2026 celebrations

Nutrition Exhibition 2026 — Fuel Your Body, Nourish Your Future

The College of Nursing came alive with color and knowledge as BSN Batch III organized the Nutrition Exhibition 2026 on 15th June (Monday), from 11:30 AM to 1:00 PM at the Al Kawthar Auditorium. Themed "Fuel Your Body, Nourish Your Future," the exhibition aimed to raise nutrition awareness among students and staff, encouraging healthier lifestyle choices through interactive learning.

The event highlighted four core pillars: nutrition awareness, educating and empowering the community, prevention and protection through balanced diets, and building a stronger, healthier tomorrow. Through engaging displays, informative charts, and hands-on demonstrations, the students of BSN Batch III successfully brought to life the exhibition's motto — "Discover. Learn. Choose Well."

The initiative reflects the College of Nursing's continued commitment to promoting health literacy and empowering future healthcare professionals to lead by example.

SEMINAR ON DISASTER MANAGEMENT & EMERGENCY

The Department of Allied and Medical Sciences at Al-Kawthar University organized an informative seminar on Disaster Management and Emergency Preparedness, aimed at raising awareness among students and faculty about effective response strategies during emergencies and natural calamities. The event was held under the patronage of **Prof. Dr. Minhaj A. Qidwai, Dean, Faculty of Allied & Medical Sciences**, whose vision and continued support made the successful execution of this seminar possible.

The keynote session was conducted by **Mr. Kanwar Waseem, Provincial Secretary at the Pakistan Red Crescent Society (PRCS)**, who shared his extensive field experience in humanitarian response and emergency relief operations. He discussed key principles of disaster risk reduction, the role of first responders during crises, coordination between healthcare institutions and relief organizations, and practical measures individuals and institutions can adopt to minimize the impact of disasters. His session emphasized building a culture of preparedness rather than reactive crisis management, encouraging students to actively participate in community-based disaster response initiatives

The session generated meaningful discussion among attendees, who engaged with the speaker on real-world case studies and emergency protocols relevant to the healthcare sector. The seminar concluded with a vote of thanks extended by Dr. Aisha, followed by the presentation of souvenirs to the guest speaker by Mr. Rizwan Ali and Dr. Ayesha, acknowledging his valuable contribution to the session. The event was well attended by faculty members and students, reflecting the department's continued commitment to equipping its community with essential life-saving knowledge.

Medical Physics Masterclass 2026: Connecting Physics, Medical Imaging & Healthcare Careers

Al-Kawthar University, Karachi hosted the Medical Physics Masterclass 2026, an outreach event introducing students to the growing field of Medical Physics, covering medical imaging, radiotherapy, radiation protection, and career opportunities in healthcare.

Students engaged directly with healthcare and Medical Physics professionals to understand how physics-based technologies support diagnosis, treatment, and patient care. Mr. M. Ismaiel Khan, Lecturer – Medical Imaging Technology, delivered a session on Medical Imaging Technology and its connection with Medical Physics, highlighting imaging modalities, radiation safety, and career prospects in the field.

The event also introduced students to BS Medical Imaging Technology (MIT) and BS Medical Laboratory Technology (MLT) as promising Allied Health Sciences career pathways, reflecting Al-Kawthar University's commitment to career awareness and scientific outreach.

1st International Conference on Public Health Governance & Sustainable Health Systems 2026

Al-Kawthar University, in collaboration with the University of Karachi, hosted the 1st International Conference on Public Health Governance & Sustainable Health Systems 2026 under the theme *"Governing for Health: Equity, Resilience, and Innovation Towards a Sustainable Public Health Future."* The conference brought together experts, academics, researchers and public health professionals to discuss approaches for building stronger, more equitable and resilient health systems. The opening session stressed the need for preventive strategies, effective governance and equitable access to health services in Pakistan, and highlighted that improvements in healthcare depend on every stakeholder fulfilling their responsibilities.

The Faculty of Allied Health & Medical Sciences (AHMS), under the leadership of Dean Dr. Minhaj A. Qidwai, played a key role in bringing this platform to our students and faculty, giving them direct exposure to national and international perspectives on health policy and system resilience. As the university's first international conference in the field of public health, this collaboration with the University of Karachi marks an important step in strengthening our research culture and academic partnerships, in line with our mission of combining academic excellence with service to humanity.

The successful conclusion of this conference reflects Al-Kawthar University's commitment to promoting research, collaboration and meaningful dialogue on issues that matter to society. We extend our gratitude to the University of Karachi, the distinguished speakers, the organizing team and all participants for making this event a success. We look forward to building on this momentum with more such academic initiatives in the future. Detailed coverage of the conference, including highlights, photographs and key takeaways, will be featured in Volume 3 of the AHMS Newsletter.

QUIZ CORNER

1 Which model is most commonly used to evaluate the quality of healthcare services?

a) SWOT Analysis
b) SERVQUAL Model
c) Porter's Five Forces
d) PICO Framework

2 Which type of isolation is required for patients with suspected airborne infections such as tuberculosis?

a) Contact Isolation
b) Airborne Isolation
c) Droplet Isolation
d) Protective Isolation

3 In hematology, which anticoagulant is most commonly used for ESR determination?

a) EDTA
b) Heparin
c) Sodium Citrate
d) Oxalate

4 Which networking device operates at the Data Link layer and is used to reduce collision domains in a network?

a) Hub
b) Switch
c) Router
d) Gateway

5 Which machine learning technique is most suitable for handling large labeled datasets with high-dimensional features?

a) k-Nearest Neighbors (k-NN)
b) Support Vector Machine (SVM)
c) Random Forest
d) Linear Regression
